

Appendix C3 | Xi Jinping HCCI Case Study

Appendix C3 | Xi Jinping HCCI Calculation (FFI Forty Items)

I. Information–Neural System

- Information Transparency: 2
→ Strictly controls public opinion and news channels, transparency is extremely low.
- Openness of Thought: 1
→ Highly conservative thinking, emphasizes ideological unity, suppresses plural voices.
- Logical Consistency: 3
→ Contains self-contradictions, e.g., demands innovation while suppressing freedom.
- System Learning Ability: 3
→ Has some capacity to mimic systems, but based on ideological imitation rather than rational absorption.
- Information Receptiveness: 2
→ Cannot tolerate critical information, suppresses counter-feedback.

II. Resource–Circulation System

- Fairness of Wealth Distribution: 1
→ National resources are highly concentrated in the elite system, distribution extremely unfair.
- Public Resource Allocation Ability: 2
→ Some capacity for organization in “face projects,” but overall structurally pathological.
- Rationality of Incentive Structure: 2
→ Loyalty is the only incentive, creativity is stifled.
- Transparency of Economic Institutions: 1
→ State-owned and private powers intertwined, lacking transparent institutional basis.
- Efficiency of Resource Use: 3
→ Shows organizational efficiency, but mainly for stability maintenance, long-term costs are high.

III. Cultural Absorption and Boundary System

- Acceptance of Foreign Cultures: 1
→ Outwardly friendly, essentially exclusionary, emphasizes cultural “uniqueness.”
- Meme Absorption Ability: 2
→ Absorbs surface-level Western technology, rejects value structures.
- Cross-Boundary Integration Ability: 3
→ Exists only as superficial patching, structurally weak.
- Civilization Boundary Awareness: 1
→ Blurred boundaries, expansionist assimilation tendencies.
- Cultural Humility: 1
→ Structurally arrogant, rarely engages in self-reflection.

IV. Reproduction and Structural Transmission System

- Intergenerational Transmission Capacity: 2
 - Stresses “tradition” and “political achievements,” suppresses generational freedom.
- Health of Parent–Child Structures: 2
 - Families lack transparency, promote “family–nation unity,” heavy intergenerational pressure.
- Institutionalized Birth Management: 3
 - Fertility policy highly volatile, shifts with power demands.
- Educational Structure Rationality: 2
 - Education system exam-driven, with ideological penetration.
- Equality of Power Transmission: 2
 - Red aristocracy enjoys privileges, social stratification rigidified.

V. Legal and Institutional System

- Legal Soundness: 2
 - Exists as formal rule of law, but substantively rule of man dominates.
- Checks and Balances: 1
 - Almost no real checks, power is highly centralized.
- Institutional Stability: 4
 - Highly stable, but stability rests on repression.
- Transparency of Power: 1
 - Decision-making is a black box, rejects accountability.
- Fairness of Law: 2
 - Law serves power, widespread inequality.

VI. Human Value and Direction System

- Value of the Individual: 1
 - Nation above all, individual submits to the collective.
- Respect for Life: 2
 - Indifference to dissenters’ lives, prioritizes regime stability.
- Freedom Values: 1
 - Extremely suppressive toward freedom.
- Priority of Happiness Indicators: 2
 - Happiness is propaganda slogan, real core is control.
- Moral Consistency: 2
 - Biased toward “family–nation” narrative, blurs public/private boundaries.

VII. Immune System (Error Recognition & Removal)

- Recognition of Structural Errors: 2
 - Lacks recognition of civilizational structural errors, prefers concealment.
- Internal Reflection: 1
 - No real self-reflection within the system.

- Self-Cleansing of Power: 1
→ Anti-corruption campaigns are mainly for power consolidation.
- Error Containment Capacity: 2
→ Uses propaganda to cover up errors rather than solve them.
- Meme Virus Recognition: 2
→ Cannot identify structural “viruses” within its own system.

VIII. Collaborative Social System

- Public Trust Enhancement: 2
→ Relies on control for superficial stability, actual trust very low.
- Openness of Self-Organization: 1
→ Civil organizations harshly suppressed, no space for social collaboration.
- Encouragement of Social Cooperation: 2
→ Policies favor organizational obedience over real cooperation.
- Support for Altruistic Mechanisms: 2
→ Lacks institutional support for altruism, depends on propaganda hero-making.
- Health of Interpersonal Support Networks: 2
→ Bureaucracy fosters mutual harm, widespread “silent majority” phenomenon.

Summary

- Total Score: 77 / 400
- FFI Score: 1.9 / 10

Evaluation: Despite organizational capacity, Xi Jinping’s structure lacks openness, transparency, self-repair, and human-value orientation. It manifests as a repressive “cancerous functional body.”

EOI (Effectiveness of Influence) Report – Xi Jinping

Parameter	Name	Value	Notes
R	Reach	1 × 10 ⁵⁵	Domestic population + global influence (Belt & Road, UN)
C	Cognitive Penetration	0.8	Deep indoctrination via schools, propaganda, media
S	Structural Penetration	1.0	Direct control over party, state, military, law
F	Frequency × Duration	4380	12 years × daily exposure
I	Amplification Factor	800	State-controlled amplification platforms
L	Leverage Power	1000	Top of national governance structure
T	Network Amplifier	3.0	Maximum position in China’s info-structural network

Formula:

$$EOI = (R \times C \times S \times F \times I \times L)^T$$

$$= (10^{55} \times 0.8 \times 1.0 \times 4380 \times 800 \times 1000)^3$$

$$\approx 2.2 \times 10^{55}$$

Conclusion: Xi Jinping's EOI reaches $\sim 2.2 \times 10^{55}$, an extreme value in the model, indicating empire-level structural amplification.
